Notes. Ranks, affiliations, email addresses, and profile URLs were checked against the linked institutional pages. Bibliometric values are approximate Google Scholar totals based on indexed snapshots available in July 2026 and may change. Uri Erez's values are estimates from public institutional and research-profile sources because a current Google Scholar metric block was not available. Michèle Wigger is listed at her current institution, CentraleSupélec, Université Paris-Saclay, rather than her former affiliation at Télécom Paris.
