

List of external letter writers for Prof. Or Ordentlich

1.

Name: Christine Bachoc

Affiliation: University of Bordeaux

E-mail: christine.bachoc@math.u-bordeaux.fr

URL: <https://www.math.u-bordeaux.fr/~cbachocb/>

Citations: 2047

H-index: 24

Research Interests: coding theory, kissing numbers, number theory, combinatorics, optimization

Relationship to candidate // collaboration : no working relationship

Reason suggested: Leading scientist in some of the areas Prof.

Ordentlich works in. *Prof. Bachoc is a leading expert in the theory of lattices and in error-correcting codes. We believe her expertise will allow her to provide an insightful review of Prof. Ordentlich's work on these topics.*

2.

Name: Alexander Barg

Affiliation: University of Maryland

E-mail: abarg@umd.edu

URL: <https://user.eng.umd.edu/~abarg/>

Citations: 7905

H-index: 45

Research Interests: Coding theory, Information theory, algebraic combinatorics.

Relationship to candidate // collaboration: no working relationship

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in.

3.

Name: Elza Erkip

Affiliation: New York University (NYU)

E-mail: elza@nyu.edu

URL: <https://wireless.engineering.nyu.edu/elza-erkip/>

Citations: 32424

H-index: 58

Research Interests: Information theory, communication theory, and

wireless communications.

Relationship to candidate // collaboration: no working relationship

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in.

4.

Name: Michael Gastpar

Affiliation: École Polytechnique Fédérale de Lausanne (EPFL)

E-mail: michael.gastpar@epfl.ch

URL: <https://ic-people.epfl.ch/~gastpar/>

Citations: 16,285

H-index: 51

Research Interests: Information Theory, Signal Processing,
Neuroscience

Relationship to candidate // collaboration: no working relationship

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in

5.

Name: Ashish Khisti

Affiliation: University of Toronto

E-mail: akhisti@comm.utoronto.ca

URL: <https://www.comm.utoronto.ca/~akhisti/>

Citations: 12815

H-index: 41

Research Interests: Information Theory, Communication Theory,
Physical Layer Security, Real Time Communication

Relationship to candidate // collaboration: no working relationship

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in.

6.

Name: Shachar Lovett

Affiliation: University of California, San Diego (UCSD)

E-mail: slovett@ucsd.edu

URL: <https://jacobsschool.ucsd.edu/people/profile/shachar-lovett>

Citations: 4,945

H-index: 37

Research Interests: Theoretical Computer Science

Relationship to candidate // collaboration: no working relationship

Reason suggested: Leading scientist in many of the areas Prof. Ordentlich works in.

7.

Name: Haim Permuter

Affiliation: Ben-Gurion University of the Negev (BGU)

E-mail: haimp@bgu.ac.il

URL: <https://www.ee.bgu.ac.il/~haimp/>

Citations: 4172

H-index: 31

Research Interests: Information theory, Machine Learning, Communication, Markov decision processes, Optimization

Relationship to candidate // collaboration: no working relationship

Reason suggested: Leading scientist in many of the areas Prof. Ordentlich works in.

8.

Name: Ronny Roth

Affiliation: Technion

E-mail: ronny@cs.technion.ac.il

URL: <https://ronny.cswp.cs.technion.ac.il/>

Citations: ~ 6,500

H-index: ~ 40

Research Interests: Error-correcting codes; Coding for magnetic and optical recording; Application of coding theory to complexity; Information theory

Relationship to candidate // collaboration: no working relationship

Reason suggested: Leading scientist in many of the areas Prof. Ordentlich works in.

9.

Name: Aaron B. Wagner

Affiliation: Cornell University

E-mail: wagner@cornell.edu

URL: <https://people.ece.cornell.edu/wagner/>

Citations: 3000

H-index: 27

Research Interests: Information Theory and Communications, Data

Compression.

Relationship to candidate // collaboration : no working relationship

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in.

10.

Name: Michele Wigger

Affiliation: CentraleSupélec, Université Paris-Saclay

E-mail: michele.wigger@centralesupelec.fr

URL: <https://michelewigger.github.io/index.html>

Citations: 4,198

H-index: 31

Research Interests: information theory, data compression, communications

Relationship to candidate // collaboration : no working relationship

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in.

11.

Name: Gregory (Greg) W. Wornell

Affiliation: Massachusetts Institute of Technology (MIT)

E-mail: gww@mit.edu

URL: <https://web.mit.edu/gww/www/>

Citations: 47105

H-index: 71

Research Interests: Information theory, signal processing, computational imaging and machine learning

Relationship to candidate // collaboration : no working relationship_

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in.

12.

Name: Yihong Wu

Affiliation: Yale University

E-mail: yihong.wu@yale.edu

URL: <http://www.stat.yale.edu/~yw562/>

Citations: 8411

H-index: 48

Research Interests: high-dimensional statistics, information theory, optimization

Relationship to candidate // collaboration : no working relationship_

Reason suggested: Leading scientist in many of the areas Prof.

Ordentlich works in.
